Upon completion of a project funded through a Request for Proposal (RFP), grant recipients will be asked to complete a “Full Proposal Final Report”. The report will be assigned to the Grant Requestor in the Grant Management System the day after the project end date listed in the Full Proposal. You will receive an email notifying you that it is available and it is due within 60 days. Below is a copy of the final report questions that will be asked. In addition you will be asked to complete a final Sunshine Act Report (if applicable, including the template) as well as a financial reconciliation.

If you have any questions about this report, please contact the Grant Officer assigned to your project or email IGLC@pfizer.com.

*Project Aim(s)  
(2000 character maximum)

*Project Lead

*Progress  
(1000 character maximum)  
Provide a quantitative statement to highlight the measurable impact of your project. Quantify the amount of change resulting from this project in terms of your target audience. Examples might be the percent increase in a process or performance measure, or a number of patients affected by the project.

*Project Impact  
(1000 character maximum)  
Provide a qualitative statement to describe the project impact relative to the specific aims. Provide an example or explain why this work was important to improving patient care.
<table>
<thead>
<tr>
<th>Requirement</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Target Health Care Professional Population</td>
<td>Quantify your total target Health Care Professional population that you originally intended to reach with this project.</td>
</tr>
<tr>
<td>Health Care Professional Population Impacted</td>
<td>Estimate the target Health Care Professional population you actually reached with this project.</td>
</tr>
<tr>
<td>Health Care Professional Population Description</td>
<td>Please provide the type of Health Care Professional targeted (e.g. Cardiologist, Nurse, Pharmacist).</td>
</tr>
<tr>
<td>Target Patient Population</td>
<td>Quantify your total target patient population that you originally intended to reach with this project.</td>
</tr>
<tr>
<td>Patient Population Impacted</td>
<td>Estimate the target patient population you actually reached with this project.</td>
</tr>
<tr>
<td>Patient Population Description</td>
<td>If necessary, please provide a short description of the target patient population.</td>
</tr>

Pfizer Independent Grants for Learning & Change
Full Proposal Final Report

*Barriers
(2000 character maximum)
Please describe any barriers you've encountered.

*Positive Feedback
(2000 character maximum)
Please describe any positive feedback you've received relative to this project.

Final Report Uploads

*Final Report
Please upload a final report using the format established by the AHRQ. The AHRQ Grant Final Report Template is available online at http://www.ahrq.gov/fund/reptemp.htm. Please ignore any irrelevant fields noted in the Title Page section of the AHRQ template instructions.

*Project Key Aspects
Please upload a short PowerPoint presentation summarizing the key aspects of your project. Decks should be no more than 5 slides and should include a brief summary of your results and the impact of your project on the healthcare community.

*Project Key Aspects Video
In keeping with our goal to spread the word regarding funded proposals we ask that you create a 5-10 minute video summarizing the key aspects of your project. This will then be posted on our website along with your Final Report. Please select an option below. If you would like to provide a video we will contact you via email to discuss further.

SELECT ONE: I would like to provide a video, I am not able to provide a video, I do not want to provide a video
