

Pfizer Visiting Professorship Program **2017**

Areas of Interest, Application Requirements & Submission Deadlines

Pfizer’s support of Visiting Professorships is a reflection of our commitment to advancing research, innovation, clinical expertise and education for healthcare professionals. The intent of this Visiting Professorship Posting is to provide financial support for host organizations to coordinate educational exchanges so that healthcare practitioners, researchers and patients can benefit from the knowledge and on-site presence of distinguished medical experts who might otherwise be inaccessible.

**Areas of Interest**

It is our intent to support opportunities for an institution to host a Distinguished Medical Expert (“Expert”) to foster educational exchanges with local healthcare providers in a similar or allied area to those listed below (“Area”), who can benefit from the Expert’s knowledge and on-site presence.

Priority will be given to plans that include robust opportunities for the Visiting Professor to interact with healthcare providers at the host organization beyond the lecture format. The organization responding to this posting and requesting the grant funding should be the organization ready to identify, invite, and host the Expert.

Area	Geographic Scope	Eligibility Criteria	Target Audience	Program Budgets
Point of Care Ultrasound in Hemophilia	Global	<ul style="list-style-type: none"> <li>Accredited Medical Schools</li> <li>Medical centers with dedicated Hematology departments treating patients with hemophilia</li> <li>Hemophilia Professional Organizations that plan to host a visiting professor directly</li> </ul>	Hemophilia specialist healthcare providers and members of the Hemophilia Treatment Center including hematologists, nurses, physiotherapists and allied professionals in a similar or allied area	Individual requests up to \$15,000
