**New Packaging Color**  
**Solu-Medrol® (methylprednisolone sodium succinate, USP)**  
**40mg Sterile Powder for Injection**

Dear Customer:

Pfizer Injectables has changed the strength color for the **Solu-Medrol (methylprednisolone sodium succinate, USP) Sterile Powder for Injection 40mg** packaging. The new package color is orange. This change is a part of our continuous improvement efforts. The new color will be reflected on each level of packaging: vial label and carton.

There is no change to the National Drug Code (NDC) or Orderable Item numbers. You will begin to see this new design in January 2011.

Please see the below examples of the new and present designs:

**New Packaging, January 2011**

**Current Packaging**

Please contact your Pfizer Injectables National Account Director or a Customer Service Representative at 1-800-533-4535 with any questions you may have.

Sincerely,

Danielle Manderioli
