1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY/UNDERTAKING

Material Name: Etoposide Solution for Injection - 20 mg/ml

Trade Name: Toposar; Citodox; Lastet
Chemical Family: Mixture
Intended Use: Pharmaceutical product used as Antineoplastic

2. HAZARDS IDENTIFICATION

Appearance: Clear, colorless to slightly yellow solution
Signal Word: WARNING

Statement of Hazard:
- Flammable liquid and vapor.
- May cause harm to the unborn child.
- May cause genetic defects.
- Suspected of causing cancer.

Additional Hazard Information:

Short Term:
- May cause eye and skin irritation; May be harmful if swallowed. (based on components)
- Exposure to high concentrations may cause irritation, headache, drowsiness, and symptoms of alcohol intoxication.

Long Term:
- Repet-dose studies in animals have shown a potential to cause adverse effects on reproductive system and the developing fetus. This product contains ethanol which can cause liver changes, central nervous system effects, and birth defects in the developing fetus. Chronic ingestion of ethanol has been associated with an increased incidence of cancer, liver cirrhosis, and, if ingested during pregnancy, congenital malformations.

Known Clinical Effects:
- Bone marrow suppression is the most serious adverse effect seen during clinical use.
- Individuals sensitive to this material or other materials in its chemical class may develop allergic reactions.

EU Indication of danger:
- Carcinogenic: Category 2
- Toxic to reproduction, Category 2
- Mutagenic: Category 2

EU Hazard Symbols:

T

EU Risk Phrases:
2. HAZARDS IDENTIFICATION

R10 - Flammable.
R45 - May cause cancer.
R46 - May cause heritable genetic damage.
R61 - May cause harm to the unborn child.

Australian Hazard Classification (NOHSC):
Hazardous Substance. Dangerous Goods.

Note:
This document has been prepared in accordance with standards for workplace safety, which require the inclusion of all known hazards of the active substance or its intermediates regardless of the potential risk. The precautionary statements and warnings included may not apply in all cases. Your needs may vary depending upon the potential for exposure in your workplace.

* Proprietary
Ingredient(s) indicated as hazardous have been assessed under standards for workplace safety.

For the full text of the R phrases mentioned in this Section, see Section 16

4. FIRST AID MEASURES

Eye Contact: Flush with water while holding eyelids open for at least 15 minutes. Seek medical attention immediately.

Skin Contact: Remove contaminated clothing. Flush area with large amounts of water. Use soap. Seek medical attention.

Ingestion: Never give anything by mouth to an unconscious person. Wash out mouth with water. Do not induce vomiting unless directed by medical personnel. Seek medical attention immediately.

Inhalation: Remove to fresh air and keep patient at rest. Seek medical attention immediately.

Symptoms and Effects of Exposure: For information on potential signs and symptoms of exposure, See Section 2 - Hazards Identification and/or Section 11 - Toxicological Information.
5. FIRE FIGHTING MEASURES

Extinguishing Media: Use carbon dioxide, dry chemical, or water spray.

Hazardous Combustion Products: Carbon dioxide, carbon monoxide

Fire Fighting Procedures: During all fire fighting activities, wear appropriate protective equipment, including self-contained breathing apparatus.

Fire / Explosion Hazards: Flammable liquid.

6. ACCIDENTAL RELEASE MEASURES

Health and Safety Precautions: Personnel involved in clean-up should wear appropriate personal protective equipment (see Section 8). Minimize exposure. Eliminate all sources of ignition and ventilate area using explosion-proof equipment.

Measures for Cleaning / Collecting: Contain the source of the spill if it is safe to do so. Absorb spills with non-combustible absorbent material and transfer into a labeled container for disposal.

Measures for Environmental Protections: Place waste in an appropriately labeled, sealed container for disposal. Care should be taken to avoid environmental release.

Additional Consideration for Large Spills: Non-essential personnel should be evacuated from affected area. Report emergency situations immediately. Clean up operations should only be undertaken by trained personnel.

7. HANDLING AND STORAGE

General Handling: Avoid breathing vapor or mist. Avoid contact with eyes, skin and clothing. When handling, use appropriate personal protective equipment (see Section 8). Wash thoroughly after handling. Wash hands and any exposed skin after removal of PPE. Releases to the environment should be avoided. Review and implement appropriate technical and procedural waste water and waste disposal measures to prevent occupational exposure or environmental releases. Potential points of process emissions of this material to the atmosphere should be controlled with dust collectors, HEPA filtration systems or other equivalent controls.

Storage Conditions: Store as directed by product packaging.
Storage Temperature: Store at 25°C (77°F)

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Refer to available public information for specific member state Occupational Exposure Limits.

Engineering Controls: Engineering controls should be used as the primary means to control exposures. General room ventilation is adequate unless the process generates dust, mist or fumes. Keep airborne contamination levels below the exposure limits listed above in this section.

Environmental Exposure Controls: Refer to specific Member State legislation for requirements under Community environmental legislation.

Personal Protective Equipment: Refer to applicable national standards and regulations in the selection and use of personal protective equipment (PPE).
8. EXPOSURE CONTROLS / PERSONAL PROTECTION

- **Hands:** Impervious gloves are recommended if skin contact with drug product is possible and for bulk processing operations.
- **Eyes:** Wear safety glasses or goggles if eye contact is possible.
- **Skin:** Impervious protective clothing is recommended if skin contact with drug product is possible and for bulk processing operations.
- **Respiratory protection:** If the applicable Occupational Exposure Limit (OEL) is exceeded, wear an appropriate respirator with a protection factor sufficient to control exposures to below the OEL.

9. PHYSICAL AND CHEMICAL PROPERTIES

- **Physical State:** Solution
- **Color:** Clear, colorless to pale yellow
- **Molecular Formula:** Mixture
- **Molecular Weight:** Mixture
- **Solubility:** Slightly Soluble: Water
- **pH:** 3-4
- **Boiling Point (°C):** 78
- **Flash Point (Liquid) (°C):** 21

10. STABILITY AND REACTIVITY

- **Chemical Stability:** Stable under normal conditions of use.
- **Conditions to Avoid:** None known Eliminate possible ignition sources (e.g., heat, sparks, flame, impact, friction, electrostatic discharge).
- **Incompatible Materials:** None known

11. TOXICOLOGICAL INFORMATION

- **General Information:** The information included in this section describes the potential hazards of the individual ingredients.

**Acute Toxicity: (Species, Route, End Point, Dose)**

**Etoposide**
- Rat Oral LD 50 1784 mg/kg
- Rat Para-periosteal LD 50 58 mg/kg
- Mouse Oral LD 50 215 mg/kg
- Mouse Intravenous LD 50 15.07 mg/kg
- Rabbit Oral LD 50 147 mg/kg

**Ethanol**
- Mouse Oral LD50 3,450 g/m³
- Rat Oral LD50 7,060 mg/kg
- Mouse Inhalation LC50 4h 39 g/m³
- Rat Inhalation LC50 10h 20,000 ppm

**Citric acid**
- Rat Oral LD50 3000 mg/kg

12. ECOLOGICAL INFORMATION

Environmental Overview: Environmental properties have not been thoroughly investigated. Releases to the environment should be avoided.

Aquatic Toxicity: (Species, Method, End Point, Duration, Result)

Etoposide
- Oncorhynchus mykiss (Rainbow Trout) LC50 96 Hours 12,900 mg/L
- Pimephales promelas (Fathead Minnow) LC50 96 Hours 14,200 mg/L
- Daphnia Magna (Water Flea) EC50 48 Hours > 61.8 mg/L

Ethanol
- Fingerling Trout NPDES LC50 24 Hours 11,200 mg/L
- Oncorhynchus mykiss (Rainbow Trout) NPDES LC50 96 Hours 12,900 mg/L
- Pimephales promelas (Fathead Minnow) NPDES LC50 96 Hours 14,200 mg/L

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods: Dispose of waste in accordance with all applicable laws and regulations. Member State specific and Community specific provisions must be considered. Considering the relevant known environmental and human health hazards of the material, review and implement appropriate technical and procedural waste water and waste disposal measures to prevent occupational exposure and environmental release. It is recommended that waste minimization be practiced. The best available technology should be utilized to prevent environmental releases. This may include destructive techniques for waste and wastewater.

14. TRANSPORT INFORMATION

The following refers to all modes of transportation unless specified below.

This material is regulated for transportation as a hazardous material/dangerous good.

UN number: UN 1170
UN proper shipping name: Ethanol solution
Transport hazard class(es): 3
Packing group: II
Flash point: 21C

15. REGULATORY INFORMATION

EU Symbol: T
EU Indication of danger: Carcinogenic: Category 2
Toxic to reproduction, Category 2
Mutagenic: Category 2

EU Risk Phrases:
- R10 - Flammable.
- R45 - May cause cancer.
- R46 - May cause heritable genetic damage.
- R61 - May cause harm to the unborn child.
15. REGULATORY INFORMATION

EU Safety Phrases:
S23 - Do not breathe fumes/vapour/spray.
S26 - In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S36/37 - Wear suitable protective clothing and gloves.
S53 - Avoid exposure - obtain special instructions before use.

OSHA Label:
WARNING
Flammable liquid and vapor.
May cause harm to the unborn child.
May cause genetic defects.
Suspected of causing cancer.

16. OTHER INFORMATION

Text of R phrases mentioned in Section 3

R10 - Flammable.
R36 - Irritating to eyes.
R45 - May cause cancer.
R46 - May cause heritable genetic damage.
R61 - May cause harm to the unborn child.
R22 - Harmful if swallowed.

Data Sources: Pfizer proprietary drug development information. Safety data sheets for individual ingredients. Publicly available toxicity information.

Reasons for Revision: Updated Section 3 - Composition / Information on Ingredients. Updated Section 4 - First Aid Measures. Updated Section 7 - Handling and Storage. Updated Section 8 - Exposure Controls / Personal Protection. Updated Section 12 - Ecological Information. Updated Section 2 - Hazard Identification. Updated Section 14 - Transport Information.
