Statement of Hazard: Possible carcinogen and mutagen

Additional Hazard Information:
Short Term: May cause eye and skin irritation; May be fatal if swallowed (based on components)
Long Term: Repeat-dose studies in animals have shown a potential to cause adverse effects on kidneys and blood and blood forming organs. Animal studies have shown a potential to cause adverse effects on the fetus.

Known Clinical Effects: Effects on blood and blood-forming organs have also occurred.
EU Indication of danger: Mutagenic Category 2
Carcinogenic: Category 2
EU Hazard Symbols:

EU Risk Phrases:

R45 - May cause cancer.
R46 - May cause heritable genetic damage.

Note:
This document has been prepared in accordance with standards for workplace safety, which require the inclusion of all known hazards of the active substance or its intermediates regardless of the potential risk. The precautionary statements and warnings included may not apply in all cases. Your needs may vary depending upon the potential for exposure in your workplace.

4. FIRST AID MEASURES

Eye Contact: Immediately flush eyes with water for at least 15 minutes. If irritation occurs or persists, get medical attention.

Skin Contact: Remove clothing and wash affected skin with soap and water. This material may not be completely removed by conventional laundering. Consult professional laundry service. Do not home launder. If irritation occurs or persists, get medical attention.

Ingestion: Get medical attention. Do not induce vomiting unless directed by medical personnel. Never give anything by mouth to an unconscious person.

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. Get medical attention.

5. FIRE FIGHTING MEASURES

Extinguishing Media: Use carbon dioxide, dry chemical, or water spray.

Hazardous Combustion Products: Formation of toxic gases is possible during heating or fire.

Fire Fighting Procedures: During all fire fighting activities, wear appropriate protective equipment, including self-contained breathing apparatus.

Fire / Explosion Hazards: Not applicable

6. ACCIDENTAL RELEASE MEASURES

Health and Safety Precautions: Personnel involved in clean-up should wear appropriate personal protective equipment (see Section 8). Minimize exposure.

Measures for Cleaning / Collecting: Contain the source of spill if it is safe to do so. Collect spill with absorbent material. Clean spill area thoroughly.

Measures for Environmental Protections: Place waste in an appropriately labeled, sealed container for disposal. Care should be taken to avoid environmental release.

Additional Consideration for Large Spills: Non-essential personnel should be evacuated from affected area. Report emergency situations immediately. Clean up operations should only be undertaken by trained personnel.
7. HANDLING AND STORAGE

General Handling: Eliminate possible ignition sources (e.g., heat, sparks, flame, impact, friction, electricity), and follow appropriate grounding and bonding procedures. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use with adequate ventilation.

Storage Conditions: Store at controlled room temperature. Protect from light.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Cisplatin
- OSHA - Final PELS - TWAs: = 0.002 mg/m³ TWA
- ACGIH Threshold Limit Value (TWA) = 0.002 mg/m³ TWA
- Australia TWA = 1 mg/m³ TWA

Hydrochloric Acid
- ACGIH Ceiling Threshold Limit: = 2 ppm Ceiling
- Australia PEAK = 5 ppm Peak
