

Environmental KPIs, Metrics & Data

Over 100 Pfizer facilities report metrics on an annual basis. Reporting helps drive performance and continuous improvement while enabling transparency and disclosure to our stakeholders. We have developed applicable reporting criteria to ensure that a truly global perspective on performance and potential improvement opportunities are maintained.

The data presented below provides additional detail to the KPIs presented in the performance summary. The categories of data we track and reports we produce is kept under review to ensure we remain focused on the information that matters most.

Special (hazardous) Waste (million kg)				
	2007	2008	2009	2010
Recycled	54.6	71.5	75.0	95.8
Incinerated	56.7	50.7	45.9	32.8
Heat Recovery	44.0	44.6	47.4	48.0
Landfill	4.1	2.7	5.3	4.2
Other Treatment	5.3	9.8	10.6	13.2

Non-Special (non-hazardous) Waste (million kg)				
	2007	2008	2009	2010
Recycled	40.1	42.3	41.8	43.6
Incinerated	3.2	2.6	2.2	3.3
Heat Recovery	0.8	1.4	1.1	3.3
Landfill	30.9	31.9	28.0	16.1
Other Treatment	0.2	0.2	0.4	1.0

Primary ODC Losses (kg)				
	2007	2008	2009	2010
Production	1673	1841	1841	3905
Utilities	861	527	720	350

Volatile Organic Compound (VOC) Losses (thousand kg)				
	2007	2008	2009	2010
Loss to Water	22.083	19.345	15.474	49.691
Loss to Land (Onsite+Offsite)	403.977	300.148	499.753	407.98
Loss to Air	553.935	472.687	391.923	529.319
