

INNOVATIVE SCIENCE

ENSURING GLOBAL SUPPLY

Produced to the Highest Standards

We strive to ensure that all Pfizer products are always available when needed.

ENVIRONMENT, HEALTH AND SAFETY IN THE SUPPLY CHAIN

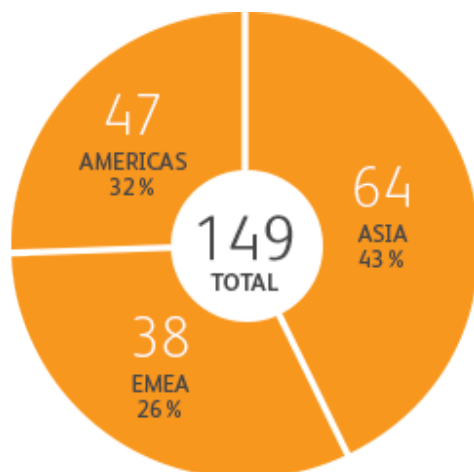

At Pfizer, responsible supply chain management is central to how we do business. We operate within a framework of principles aligned with ethical, social and environmental responsibilities to help ensure the sustainability of our business and the communities in which we operate. To that end, an external supply team oversees efforts to ensure that our chemical and biological product suppliers manage environment, health and safety (EHS) risks. We recently partnered with the Institute of Sustainable Communities, an organization committed to advancing sustainability in developing countries through education and training, and we participate in the industry-wide Pharmaceutical Supply Chain Initiative.

Click [here](#) for more information about EHS within our supply chain.

Pfizer is committed to responsible supply chain management. To learn more, please see:

SUPPLIER ONSITE ASSESSMENTS COMPLETED BY PFIZER'S EHS EXTERNAL SUPPLY TEAM IN 2012

There was a 30 % reduction in EHS supplier onsite assessments from 2011 to 2012 due largely to the use of a new risk priority ranking tool.

OUR GLOBAL SUPPLY CHAIN

Pfizer products are produced to the highest standards, in full compliance with all applicable legal requirements. We supply products from both our internal manufacturing sites and a network of external partners. External partners are selected based on their ability to reliably supply quality product at a competitive cost. We apply rigorous controls to assure quality across the entire supply chain.
