1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY/UNDERTAKING

Material Name: Glyburide Tablets
Trade Name: Micronase
Chemical Family: Mixture
Intended Use: Pharmaceutical product used as antidiabetic agent.

2. HAZARDS IDENTIFICATION

Appearance: White, Pink, and Blue round tablets.

Statement of Hazard: Non-hazardous in accordance with international standards for workplace safety.

Additional Hazard Information:
- Short Term: Antidiabetic drug: has blood-sugar lowering properties
- Long Term: Individuals sensitive to this chemical or other materials in its chemical class may develop allergic reactions.

Known Clinical Effects: Adverse effects associated with therapeutic use include decreased blood sugar (hypoglycemia), yellowing of the skin, eyes, and mucous membranes (jaundice), nausea, epigastric discomfort, heartburn and skin reaction. Clinical use has caused effects on the cardiovascular system, including cardiovascular mortality.

EU Indication of danger: Not classified

Note: This document has been prepared in accordance with standards for workplace safety, which require the inclusion of all known hazards of the active substance or its intermediates regardless of the potential risk. The precautionary statements and warnings included may not apply in all cases. Your needs may vary depending upon the potential for exposure in your workplace.

*** per tablet/capsule/lozenge/suppository
Ingredient(s) indicated as hazardous have been assessed under standards for workplace safety.

4. FIRST AID MEASURES

Eye Contact: Flush with water while holding eyelids open for at least 15 minutes. Seek medical attention immediately.

Skin Contact: Remove contaminated clothing. Flush area with large amounts of water. Use soap. Seek medical attention.

Ingestion: Never give anything by mouth to an unconscious person. Wash out mouth with water. Do not induce vomiting unless directed by medical personnel. Seek medical attention immediately.

Inhalation: Remove to fresh air and keep patient at rest. Seek medical attention immediately.

Symptoms and Effects of Exposure: For information on potential signs and symptoms of exposure, See Section 2 - Hazards Identification and/or Section 11 - Toxicological Information.

5. FIRE FIGHTING MEASURES

Extinguishing Media: Use carbon dioxide, dry chemical, or water spray.

Hazardous Combustion Products: Formation of toxic gases is possible during heating or fire.

Fire Fighting Procedures: During all fire fighting activities, wear appropriate protective equipment, including self-contained breathing apparatus.

Fire / Explosion Hazards: Not applicable

6. ACCIDENTAL RELEASE MEASURES

Health and Safety Precautions: Personnel involved in clean-up should wear appropriate personal protective equipment (see Section 8). Minimize exposure.

Measures for Cleaning / Collecting: Contain the source of spill if it is safe to do so. Collect spilled material by a method that controls dust generation. A damp cloth or a filtered vacuum should be used to clean spills of dry solids. Clean spill area thoroughly.

Measures for Environmental Protections: Place waste in an appropriately labeled, sealed container for disposal. Care should be taken to avoid environmental release.
Additional Consideration for Large Spills:
Non-essential personnel should be evacuated from affected area. Report emergency situations immediately. Clean up operations should only be undertaken by trained personnel.

7. HANDLING AND STORAGE

General Handling:
Minimize dust generation and accumulation. If tablets or capsules are crushed and/or broken, avoid breathing dust and avoid contact with eyes, skin, and clothing. When handling, use appropriate personal protective equipment (see Section 8). Wash thoroughly after handling. Wash hands and any exposed skin after removal of PPE. Releases to the environment should be avoided. Review and implement appropriate technical and procedural waste water and waste disposal measures to prevent occupational exposure or environmental releases.

Potential points of process emissions of this material to the atmosphere should be controlled with dust collectors, HEPA filtration systems or other equivalent controls.

Storage Conditions:
Store as directed by product packaging.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Refer to available public information for specific member state Occupational Exposure Limits.

Analytical Method:
  Analytical method available for glyburide. Contact Pfizer Inc for further information.

Engineering Controls:
  Engineering controls should be used as the primary means to control exposures. General
  room ventilation is adequate unless the process generates dust, mist or fumes. Keep airborne
  contamination levels below the exposure limits listed above in this section.

Environmental Exposure Controls:
  Refer to specific Member State legislation for requirements under Community environmental
  legislation.

Personal Protective Equipment:
  Refer to applicable national standards and regulations in the selection and use of personal
  protective equipment (PPE).

Hands:
  Impervious gloves are recommended if skin contact with drug product is possible and for bulk
  processing operations.

Eyes:
  Wear safety glasses or goggles if eye contact is possible.

Skin:
  Impervious protective clothing is recommended if skin contact with drug product is possible and
  for bulk processing operations.

Respiratory protection:
  Not required for the normal use of this product. If the applicable Occupational Exposure Limit
  (OEL) is exceeded, wear an appropriate respirator with a protection factor sufficient to control
  exposures to below the OEL.

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use.
Conditions to Avoid: None known
Incompatible Materials: As a precautionary measure, keep away from strong oxidizers

11. TOXICOLOGICAL INFORMATION

General Information: The information included in this section describes the potential hazards of the individual ingredients.

Acute Toxicity: (Species, Route, End Point, Dose)

**Magnesium stearate**
Rat Oral LD50 > 2000 mg/kg
Rat Inhalation LC50 > 2000 mg/m³

**Microcrystalline cellulose**
Rat Oral LD50 > 5000 mg/kg
Rabbit Dermal LD50 > 2000 mg/kg

**Talc (non-asbestiform)**
Rat Oral LD50 > 1600 mg/kg

**Glyburide**
Rat Oral LD50 >3200 mg/kg
Mouse Oral LD50 >1500 mg/kg
Rabbit Oral LD50 >10000 mg/kg
Guinea Pig Oral LD50 >15000 mg/kg

Acute Toxicity Comments: A greater than symbol (>) indicates that the toxicity endpoint being tested was not achievable at the highest dose used in the test.

Irritation / Sensitization: (Study Type, Species, Severity)

**Microcrystalline cellulose**
Skin Irritation Rabbit Non-irritating
Eye Irritation Rabbit Non-irritating

**Glyburide**
Eye Irritation Rabbit No effect
Skin Irritation Not specified No effect

Repeated Dose Toxicity: (Duration, Species, Route, Dose, End Point, Target Organ)
11. TOXICOLOGICAL INFORMATION

Glyburide

Reproduction & Developmental Toxicity: (Study Type, Species, Route, Dose, End Point, Effect(s))

- 18 Month(s) Rat Oral 0.12 mg/kg/day LOAEL Endocrine system
- 12 Month(s) Rat Oral 5.2 mg/kg/day NOAEL No effects at maximum dose
- 30 Day(s) Rat Oral 300 mg/kg/day NOAEL No effects at maximum dose
- 45 Day(s) Rat Oral 2,000 mg/kg/day NOAEL No effects at maximum dose
- 6 Week(s) Dog Inhalation 1.7 ug/kg NOAEL No effects at maximum dose

Reproduction & Developmental Toxicity: (Study Type, Species, Route, Dose, End Point, Effect(s))

Glyburide

Embryo / Fetal Development Rat Oral 100 mg/kg/day LOAEL Not teratogenic
Embryo / Fetal Development Rabbit 100 mg/kg/day LOAEL Not Teratogenic
Reproductive & Fertility Rat Oral 100 mg/kg/day NOAEL No effects at maximum dose

Genetic Toxicity: (Study Type, Cell Type/Organism, Result)

Glyburide

- Bacterial Mutagenicity (Ames) Salmonella Negative
- Chromosome Aberration Hamster Lung Cells Negative
- In Vivo Micronucleus Mouse Negative

Carcinogenicity: (Duration, Species, Route, Dose, End Point, Effect(s))

Glyburide

- 2 Year(s) Mouse Oral 3000 mg/kg/day NOAEL Not carcinogenic
- 18 Month(s) Rat Oral 300 mg/kg/day NOAEL Not carcinogenic

Carcinogen Status:

None of the components of this formulation are listed as a carcinogen by IARC, NTP or OSHA. See below

Colloidal silicon dioxide

IARC:

- Group 3

Talc (non-asbestiform)

IARC:

- Group 3

12. ECOLOGICAL INFORMATION

Environmental Overview:

Environmental properties have not been thoroughly investigated. Releases to the environment should be avoided.

13. DISPOSAL CONSIDERATIONS

Disposal Procedures:

Dispose of waste in accordance with all applicable laws and regulations. Member State specific and Community specific provisions must be considered. Considering the relevant known environmental and human health hazards of the material, review and implement appropriate technical and procedural waste water and waste disposal measures to prevent occupational exposure and environmental release. It is recommended that waste minimization be practiced. The best available technology should be utilized to prevent environmental releases. This may include destructive techniques for waste and wastewater.
14. TRANSPORT INFORMATION

Not regulated for transport under USDOT, EUADR, IATA, or IMDG regulations.

15. REGULATORY INFORMATION

EU Indication of danger:  Not classified

OSHA Label:
Non-hazardous in accordance with international standards for workplace safety.

Canada - WHMIS: Classifications

WHMIS hazard class:  None required
This product has been classified in accordance with the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.
