Food Animal Care

Representing approximately 60% of Pfizer Animal Health’s global revenue. Among key products or services:

- ✓ **Bovi-Shield Gold**, effective respiratory and reproductive cattle vaccines. <http://www.bovishieldgold.com>
- ✓ **Improvast/Improvac / Vivax / Innosure**, a novel technology to control off-odors and taste in pork from male pigs, allowing natural boar growth while assuring pork quality. <http://www.improvac.com>
- ✓ **Dairy Wellness Plan**, a U.S. program to optimize the health of dairy cows. <https://www.dairywellness.com>

Animal Genetics is a leading provider of comprehensive state-of-the-art genetic information and support services that deliver genetic predictions and solutions to beef, dairy and sheep producers. <http://www.pfizeranimalgenetics.com>

Global Poultry is committed to developing and commercializing novel vaccines, mechanical, and data management products for poultry producers.

Aquaculture offers innovative vaccines to help protect salmon and tilapia from infection, and diagnostic systems to monitor the health of farmed fish.

Companion Animal Care

Representing approximately 40% of Pfizer Animal Health’s global revenue. Among key products:

- ✓ **Convenia (cefovecin sodium)**, an antibiotic for dogs and cats that delivers an assured, full course of treatment in one injection, avoiding the difficulty of administering daily pills. <http://www.convenia.com>
- ✓ **Revolution / Stronghold (selamectin)**, to protect dogs and cats from heartworms, fleas and other harmful parasites. <http://www.revolutionpet.com>
- ✓ **Palladia (toceranib phosphate)**, to treat mast cell tumors in dogs. <http://www.palladia-pi.com>

Pfizer’s equine care portfolio is among the world’s largest, focused on the health and welfare of horses.

- ✓ **Quest**, treatment and control of internal parasites.

Veterinary Diagnostics offers a world-class portfolio of immunodiagnosics products to detect viruses or bacteria in companion and food production animals.
