Jeffrey Trocio

Associate Director
Primary Care Market Access

“I spent four months in Uganda working to improve maternal, newborn and child health as a Pfizer Global Health Fellow with Save The Children. It was an amazing experience. We were in the heart of Kampala, the capital city, working on building coalitions among national, regional and global stakeholders. I learned so much, particularly about what collaboration can do, especially when resources are limited, and how diversity and different experiences bring strength and innovation to a team.”

Focused on Where Needs Are Great

For the past decade, Global Health Fellows like Jeffrey have worked hand-in-hand with international development organizations to strengthen health care infrastructure, capacity and awareness in under-resourced communities. Sharing best practices and private-sector knowledge, they learn how to leverage existing resources to create tangible and sustainable improvements in public and private health care delivery. Fellowship focus areas align with Pfizer expertise, such as supply chain management, health prevention programming and business development.

The program promotes access, quality and efficiency of health care delivery for people in greatest need around the world. In return, Fellows and Pfizer gain new perspectives on global health challenges and how the public and private sectors can work together to address them.

317 COLLEAGUES

Have served as Pfizer Global Health Fellows since 2003.

40+ COUNTRIES

Including the U.S., since 2003

Pfizer's Global Health Fellows Program

Global Health Fellows is our signature international corporate volunteer program that places Pfizer colleagues and teams in short-term assignments with leading international development organizations in under-resourced communities around the world. For more on the program, including profiles of current and past Fellows, go [here](#).

The program is part of Pfizer's Investments in Health platform that focuses on leveraging the full range of our resources — people, medicines, expertise and funding — to broaden access to medicines and strengthen health care delivery for underserved people around the world. For more information on our social investments, go [here](#).

40 PARTNERSHIPS

With international development organizations over the life of the Global Health Fellows program.

94%
