

(5) Amounts reported in the Aggregate Balance column reflect the cumulative value of the NEOs' deferral activities, including employee contributions, company matching contributions/RSC, withdrawals and investment earnings thereon as of December 31, 2016. The amounts reported do not include the fourth quarter 2016 matching contributions or the RSC earned in 2016 because they were credited in early 2017; such amounts are included in this table under the "Pfizer Contributions in 2016" column and in the "2016 Summary Compensation Table" under the "All Other Compensation" column in 2016 (based on the year contributions were earned).

## Pfizer Savings Plans

### GENERAL

The Company provides the Pfizer Savings Plan to U.S.-based employees and the PSSP to employees who meet the eligibility requirements. Contribution amounts are reflected in the 2016 Summary Compensation Table or prior years' summary compensation tables, as applicable. Note that investment earnings have not been included.

For 2016, the tax law limits:

- the "additions" that can be made to a participating employee's account to \$53,000 per year (or \$59,000 per year for eligible participants age 50 and over). "Additions" include matching contributions, RSC, before-tax contributions, Roth 401(k) contributions and after-tax contributions.
- the amounts that may be allocated to tax-qualified savings plans to \$18,000 per year (or \$24,000 per year for eligible participants age 50 and over).
- the amount of compensation that can be taken into account in computing contributions under the Savings Plan to \$265,000.

### SAVINGS PLAN

The Savings Plan is a tax-qualified retirement savings plan. Participating employees may contribute up to 30% of "regular earnings" on a before-tax basis, Roth 401(k) basis and after-tax basis, into their Savings Plan accounts, subject to tax law limitations. "Regular earnings" for the Savings Plan includes both salary and bonus. In addition, under the Savings Plan, we generally match an amount equal to one dollar for each dollar contributed by participating employees on the first 3% of their regular earnings, and 50 cents for each additional dollar contributed on the next 3% of their regular earnings. Matching contributions, which are immediately vested, are paid at the end of each quarter provided the employee is employed at the end of each quarter unless the employee terminated employment due to retirement, death or disability.

In addition to the matching contributions, since 2011 the Company provides newly hired colleagues, rehires and transfers to the U.S. and Puerto Rico, the RSC which is an age- and service-weighted annual Company contribution that varies from 5% to 9% of eligible earnings. The RSC is invested in the same fund options selected for each employee's contributions. The RSC vests upon three years of service and is only made if the employee is employed on December 31st of the respective year unless the employee terminated employment due to retirement, death or disability. Mr. Young transferred to the U.S. in 2012 and was not eligible to participate in the U.S. Pension Plan, and was therefore eligible for the RSC under the PSP and the PSSP.

### SUPPLEMENTAL SAVINGS PLAN

The PSSP is intended to provide crediting of Company contributions equal to the difference between the amount actually allocated under the Savings Plan and the amount that would have been allocated to an employee's account, if the limits described in the preceding paragraphs under "Pfizer Savings Plans—General" did not exist. Under the PSSP, participants can elect to defer up to 30% of eligible wages on a before-tax basis. Generally, under the PSSP, contributions plus earnings are paid out of general assets of the Company. Participants can elect to receive payments as a lump sum or in 2 to 20 annual installments following termination from service. Participants who do not make an election receive a lump sum payment. In certain circumstances, we have established and funded rabbi trusts to meet our obligations under the PSSP.

In addition, prior to 2012, Dr. Dolsten and Mr. Germano participated in the Wyeth Supplemental Employee Savings Plan (Wyeth SESP), a non-funded, non-qualified supplemental savings plan. In certain circumstances, we have established and funded rabbi trusts to meet our obligations under the Wyeth SESP.

Amounts deferred, if any, under the PSSP by the NEOs for 2016 are included in the "Salary" and "Non-Equity Incentive Plan Compensation" columns of the 2016 Summary Compensation Table. In the Non-Qualified Deferred Compensation Table, PSSP values (including the legacy Wyeth SESP values for Dr. Dolsten and Mr. Germano) are shown for each NEO. Executive contributions reflect the percentage of salary and bonus the executive has elected to defer under the PSSP. Matching contributions and RSC (if applicable) are shown in the "Pfizer Contributions" column of the table. For the NEOs, the Company's matching contributions and RSC, if applicable, under the Savings Plan and the PSSP are also shown in the "All
